STEP 4 – APPLIES TO CHAIN OPERATION ONLY

**CHILD/SAFETY CHAIN TENSIONER INSTALLATION**

This device **MUST** be properly installed in accordance with Health Canada regulations on corded window covering products. Fasten P-Clip against the window frame or wall. Position the P-Clip so it does not interfere with the travel of the shade. Chain should be tight, but not under stress when adhered to the P-Clip. Fasten the P-Clip using screws provided. **Do not twist the chain. ChainGuard will rest on P-Clip.**
To operate the chain slide ChainGuard up and hold, exposing the chain. Use the exposed chain to raise or lower your shade accordingly. Release the ChainGuard to conceal the chain.

MAINTENANCE & CARE

Fabrics can be periodically dusted using a soft cloth, feather duster, or vacuum cleaner with brush attachment. If staining does occur, most fabrics can be cleaned using a soft cloth with water or a mild soap detergent. Any detergent or cleaning product should be tested on a small inconspicuous area prior to cleaning the fabric. Do NOT use abrasives or harsh cleansers as they can damage the fabric. Dab with a cloth or towel to prevent water spots and roll shade down to the window sill to allow the fabric to air-dry.
